### ***Cisco Statement on Plan to Modernize America's Tax System***

"Today marks a major milestone in the decade-long effort to pass meaningful tax reform. By modernizing the U.S. corporate tax code, the plan unveiled today would unleash a new wave of innovation, investment, and entrepreneurship in the United States.

There is a window of opportunity for Congress to act. Cisco will work with the White House and members of Congress on both sides of aisle to see that this proposal moves through the legislative process and is signed into law."
